

Name- Mohamed Salihu Adnan Fazi

Email address- adnanms699@gmail.com **Ph.no:** +852 54247075 **LinkedIn -** <https://www.linkedin.com/in/adnan-fazi>

Career Objective:

A highly ambitious year two student at Hong Kong Baptist University, I am excited to pursue my major in Math & Statistics with a minor in Computer science. I am passionate about continuous learning, exploring new opportunities and have a strong interest in learning AI. I have a strong entrepreneurial spirit to build ideas and a passion to learn code as a self taught coder.

Education:-

- Hong Kong Baptist University, Hong Kong, September 2024 – Present
Bachelor of Science - Mathematics and Statistics, Minor in Computer Science
CGPA - 2.75 (Dean's list semester 1(2024 - 2025))

Experience:-

HackTheEast (Organiser): Dec 2025 - Present

Operations Team

- Organised Hong Kong's biggest student-led AI hackathon with over 300+ participants.
- Worked closely with the operations team to ensure the whole event runs smoothly.
- Supported sponsorship outreach and university promotion, increasing student visibility and engagement.

ENACTUS: Mar 2026 - Present

Peer Buddy

- Acting as a peer buddy in their flagship programme SLEEP 2026.
- Peer advising 2 mature-stage project teams alongside Seasoned Business advisors.
- Provided strategic and entrepreneurial guidance to student-led social innovators.

App developer: Nov 2025 - Nov 2025

Personal Project

- Vibe-coding a social networking platform connecting developers worldwide for hackathons and collaboration, featuring an integrated mentorship booking system that enables experienced developers to guide newcomers.
- Self-learned AI tools for creating a full working website by using tools like (Supabase, Qoder, Lovable, and cursor)
- Gained hands-on experience with npm dependency management and server configuration, including resolving peer dependency conflicts and handling port allocation issues.

Extracurricular activities:-

Convenor of (SQC) Student quiz club: Nov 2023 - Jan 2024

- Served as a convener and organized two quiz competitions for grades 9–12, engaging over 100 students.
- Improved leadership and communication skills while managing the event.

Member of (SSC) Student sports council: Nov 2023 - Jan 2024

- Coordinated track-and-field events for Sports Day with PE teachers.
- Managed students during events and sorted data using Excel.

Achievements and Awards:-

- Alibaba Jumpstarter Student AI Challenge - TOP 30
- BU Hack - Top 5
- Cyberport University Partnership Programme - Currently at Stage 1
- Alphasights case competition - Participant
- Techathon | Web3 Ideathon | Cathay Hackathon | Gen AI hackathon for SDG's - Participant

Workshops & Key learnings:

- **AI Workshop:** Learned about ethics, limitations, and practical applications of AI.
- **Entrepreneurial Series:** Attended sessions on business planning and strategies
- **Networking Event:** Explored opportunities and strategies for securing internships.

Technical and Soft Skills:-

- **Programming languages:** Python, Bash, HTML, CSS and MATLAB
- **GitHub:** <https://github.com/adnanms699>
- **Tools and Libraries:** Excel, Canva, Tableau, Pandas and Git
- **AI Tools:** Lovable, GtiHub Copilot, Qoder, Cursor, Supabase and Vercel
- **Soft skills:** Time management, Adaptability, Calm under pressure, Strategic planning, Leadership and Team work

Languages:-

- English (Fluent)
- Tamil (Native)
